

Can I print or order printed versions of interactive course modules?

Mathew Gancarz - 2025-01-21 - Course Specific

We do not offer or encourage learners to rely on paper-based versions of our online course components for several reasons. Among them is that we are often updating our courses to ensure that they are up to date with the latest research and learners who adhere to print versions may end up looking at outdated information. Many of our modules are highly interactive and provide a variety of opportunities for review and hands on practice. Key memory/job aids are often linked as printable files for learners to save for later use.
