How to Use the eLearning Centre?

Mathew Gancarz - 2023-06-24 - Course Specific

To access the **eLearning Centre**, first you need to create a de Souza Institute account. Once your account is active and you can already login with your username and password, you will be able to access the eLearning Centre.

If you have just created an account and it is your first time using our systems, please go through the **eLearning Centre Orientation course**, listed under "My Courses" after you log into eLearning.

Need more help?
You can download this quick guide (pdf) on using the eLearning Centre.
