I'm in a de Souza course -- How do I know what I should be reading?

Mathew Gancarz - 2025-01-21 - Virtual Library

If your course contains mandatory or recommended readings, once you enter your course in the eLearning Centre, you will see a list of readings. While some instructors break up the lists by unit or topic, others provide a single list.

As you proceed through your course keep an eye out for direct links to helpful information on the web as well as in the Virtual Library. Course links appear as underlined blue text below italicized instructional text. Your instructor may also choose to disseminate additional information via the course News forum or email, so check your email and course News and Collaboration forums frequently.
