

Why do I need an invigilator for some courses

Julian Appel - 2023-07-10 - Course Specific

Why do I need an invigilator for some courses?

Learners who participate in the de Souza Institute's Standardized Provincial Chemotherapy and Biotherapy program require certain course components to be invigilated. This process helps maintain the high standard of the program as well as patient safety.

de Souza Institute maintains a relationship with its invigilators. It is essential that the names and contact information you provide for your invigilators are accurate and up to date.
